**Harsehej Preet Kaur**

has successfully completed the online, non-credit Specialization

# Communication Skills for Engineers

Engineers who want to advance in their profession need to be effective communicators. They need to clearly communicate complex ideas and technical project plans. They also need to be strong persuaders, able to convince different audiences about the need to implement the solutions they propose. In this Specialization, you will develop the essential communication skills you need to lead teams and projects in engineering organizations. You'll practice designing and giving strong, persuasive presentations; you'll learn how to communicate using online tools and how to hold effective meetings and videoconferences with global teams; you will learn how to handle difficult conversations and crisis communication, you'll also learn writing skills immediately applicable in your daily activities.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
